Subject: URGENT: Neil Wells etc

We have just received the legal opinion from George Capes on the Waitakere CC inspectors issue and AWINZ.

I have left a copy on you desk as you were away. There is copy for Barry as well.

The implications are far reaching. If you agree to follow the opinion, then i suggest that the meeting with Neil be cancelled. We suggest a Policy/ MAF Reg and MAF Legal "round table" to discuss the opinion, its implications and a future strategy.

The opinion is for internal MAF use and should not be given to Neil.

In light of the opinion I would not feel comfortable about attending a meeting with Neil unless MAF Legal was also present. If you proceed with the meeting then perhaps Neil could be given some indication of our concerns and the need for us to review the whole exercise.

Mark
