Subject: Council solicitor obstructs freedom of information

To the mayor and Councillors

After being obstructed by the Counsel for council in obtaining information which should be on file under the public records act I received a response within One hour telling me that that the information was not available.

I then asked for a job description for counsel for council and am now being told that I am being vexatious.

I know that I have made a lot of LGOIMA requests but you see questioning why a council employee was running a private enterprise off council facilities has cost me nearly \$3000,000

I have a ton of evidence and did the initial job as a pro bono for a council employee who wanted to know why she was "volunteering" her council paid time to her managers "Organisation"

I have clear evidence that the manger was contracting the council staff to himself and profiting from it.

It should have been a simple matter of the council investigating.. yet it covered up and has continued to cover up

I am bringing this to the attention of each and every one of you and hope that some of you may be interested. No one should be exposed the way I have been for questioning the corrupt use of council facilities and resources.

I should not have to go to Ombudsmen for a job description, the ombudsmen's office is over worked it is an abuse of process to ask me to obtain it through the ombudsmen and proves the obstructiveness of council.

I have made a complaint about Ms Brandon's lack of action to the law society I believe this is her way of extracting revenge on me .

If counsel for council dictates the terms what are you all there for? Is it a case of the tail wagging the dog?

If you condone the corrupt use of council resources then please remain quite.

Regards
Grace Haden
