08 Mar 2018	Summer Marks-STAFF	Note - General	Was accidentally returned from foster. Have re requested these pups as they are still out with Bridget.
23 Mar 2018	Doug Dreyer	Treatment - consult re-check seized	Rechecked ears. No concerns. To continue with weekly ear cleaning. FP says pup doesn't like walking long distances. Prefers to lie down. Seems stiff upon getting up. On exam painful on hip extension (vocalised + resented handling). Will need GA and xrays. (SL)
04 Apr 2018	Doug Dreyer	Treatment - Dog - Vaccination - Vanguard 5	Vanguard Plus 5 Batch 242695 exp 05/02/2019 Booster due 04/04/2019 ST
04 Apr 2018	Doug Dreyer	Treatment - Xray - Big Plate	GA with Alfaxan , maintain with isoflurane , X-ray pelvis and both stifles lat and v/d . At this age both hips and stifles radiologically normal . Auscultate chest and heart , by DD , RH , and LO . No heart murmur detected.
04 Apr 2018	Rosalind Holland	Treatment - consult re-check seized	Monthly General Examination Eyes: WNL Ears: Both ears dirty. To increase ear cleans to every other day. Heart/Lungs: To re-ck at next monthly exam BCS: 4/9 Given revolution and drontal for tomorrow (AP)
23 Apr 2018	Meike Sloan	Note - General	Digga temporarily in shelter while foster is on holiday 23/4-26/4
10 May 2018	Meike Sloan	Treatment - Dog - Wormer med/large	Simparica and Drontal given 20 kg
10 May 2018	Doug Dreyer	Treatment - consult re-check seized	Still painful on hip examination and leg extension , dispense 14 metacam1mg , to be dosed 2 tabs sid with food for a week and foster person to monitor if there is any improvement in movement and pain
17 May 2018	Lyndell Olley	Treatment - consult re-check seized	FP has noted slight improvement in walking. Range of motion seems improved. Dog seems happier to sit and stand, before he would prefer to lie on the floor. Seemed a bit painful last night due to increased exercise. Still wobbly while walking but improved. On exam resented hind limb extension but did not vocalise. To continue with medication dispensed 28 tabs metacam 1mg , to be dosed 2 tabs sid for fourteen days Weight 20.3kg (SL)

DATE	STAFF MEMBER	NOTE TYPE	NOTES
01 Jun 2018	Sarah Foster	Treatment - consult re-check seized	<p>Foster parents has not seen significant improvement since last vet check. Thinks initial improvement has 'plateaued.'</p> <p>Dog now sits to wait instead of lying down. To continue metacam 1mg, to be dosed 2 tabs sid for fourteen days). Recheck in two weeks. Dog is going to physio, should see improvement with this.</p> <p>Dermatitis ventral neck has gotten worse, is now present dorsal spine and tail base, to increase bathing to twice weekly to get under control then recheck before decreasing.</p> <p>Grade 3 heart murmur present (was checked by 3 vets under GA and none could hear, but each vet could hear heart murmur on separate occasions when not under GA)</p>
21 Jun 2018	Sarah Foster	Treatment - consult re-check seized	<p>(SL)</p> <p>Monthly General Examination</p> <p>Eyes: WNL</p> <p>Ears: No obvious abnormalities but dog resented otoscope so couldn't examine properly. Foster parent is not cleaning regularly but is spot cleaning every other day.</p> <p>Nose: WNL</p> <p>Mouth/teeth: WNL</p> <p>Heart/Lungs: murmur not located today</p> <p>Limb Extension: WNL</p> <p>Patella check: WNL</p> <p>Skin/Coat: scurfy coat ventral neck and chest, possibly due to nibbling from other dogs, to change medicated baths to dermaleen once a fortnight, and to stop treat ventral neck with sebizole as required. Otherwise coat improving</p> <p>Weight: 25kg</p> <p>BCS: 4.5/9</p> <p>Recommended feeding amount/type: maintain feeding amount.</p> <p>Dog has been doing physiotherapy daily, and hydrotherapy weekly.</p> <p>Dog has not been taking metacam for two weeks and foster parent has not noted any pain.</p> <p>Given Drontal and Simparica.</p>
